JOINT MESSAGE BY EXECUTIVE CHAIRMAN AND EXECUTIVE DIRECTOR & CEO

联合致辞

DEAR SHAREHOLDERS,

On behalf of the Board of Directors, we would like to present the Annual Report of The Place Holdings Limited (“The Place” or “The Company”), and together with its subsidiaries, “the Group”) for the financial year ended 31 December 2021 (“FY2021”).

Over the past two years, the crisis around the COVID-19 pandemic has left almost no one untouched, where communities and businesses are adapting and embracing change in the “new normal” brought on by COVID-19.

While the Group has had to navigate the challenges and uncertainties as COVID-19 unfolded, it has not derailed our mission to be future ready.

In fact, COVID-19 created an opportunity for us to reshape and sharpen our business focus and growth plans around the digital economy and new consumer trends.

With this refreshed approach, we are undertaking initiatives to integrate traditional businesses with omni-channel strategies and digital solutions (such as immersive virtual reality technology, “new-retail” solutions, last mile logistics, enterprise intelligent connectivity) to create new value propositions and exploring new growth opportunities targeted at the digital economy and new consumer trends.

NEW GROWTH INITIATIVES TO INCREASE RECURRING INCOME STREAMS

Notably, on 31 March 2022, the Group signed a MOU with Stellar Lifestyle Pte. Ltd. (“Stellar Lifestyle”), a business arm of SMRT Corporation Ltd., to jointly collaborate to shape the future of digital media and tap new opportunities in the digital economy. The Group and Stellar Lifestyle aim to build

Singapore’s first Sky Screen, a suspended video screen that will be an enhanced version of Beijing’s iconic attraction, Shimao Tianjie Sky Screen (the “Sky Screen”).

The Sky Screen is one of the largest sky screens in Asia with 7,500 sqm of LED lights across a space of 250m long and 30m wide, offering a spectacular light show experience with high-resolution imagery and state-of-the-art, immersive sound systems as well as technological features that enable interactivity.

As a high-tech visual extravaganza, the enhanced Sky Screen is envisaged as a new attraction in Singapore that will be integrated with smart digital technology system and immersive media, boosting new business vibrancy and creating new possibilities in digital media solutions.

Leveraging on the years of technology accumulation and smart business management experience of the Group and Stellar Lifestyle, the Group will develop an ecosystem to enable small and medium enterprises to create new business opportunities and better serve Singaporeans.

Together with Stellar Lifestyle, the Group will explore collaboration and investment opportunities in the Media, Digital and Advertising business in, but not limited to, Singapore.

Separately, in early March 2022, the Group announced a MOU to acquire a 51% stake in two entities of which one entity owns the Intellectual Property Rights (“IP Rights”) of design patent and certain trademarks that are related to property landmark, THE PLACE, in Beijing while the other entity owns certain assets and businesses relating to the iconic attraction, Shimao Tianjie Sky Screen, in Beijing. More information on THE PLACE and Shimao Tianjie Sky Screen can be found at <https://www.theplacebeijing.com>.

JOINT MESSAGE BY EXECUTIVE CHAIRMAN AND EXECUTIVE DIRECTOR & CEO

联合致辞

After the completion of the acquisition of 51% stake in the above-mentioned two entities (“Proposed Acquisitions”), the Group is expected to receive recurring royalty income from the licensing of the IP Rights and operating revenue from the operation of the Shimao Tianjie Sky Screen.

Pioneering new experiential marketing experiences, the Sky Screen has established a strong brand and continues to be a popular venue and platform for various events, advertisements and media.

Both the IP Rights and the Sky Screen are income-generative businesses and the proposed acquisitions are expected to strengthen the Group’s cash flow and financial performance.

Via integrating traditional businesses with omni-channel strategies and digital solutions (a scalable asset-light model), this model can be replicated across various countries. There are also various opportunities to utilise the IP Rights and technological features of the Sky Screen to potentially develop new business propositions related to the digital economy (such as gamification, NFTs, Metaverse) and create new revenue streams.

OUR PROPERTY PROJECTS IN SINGAPORE

The Group continues to be firm believers in the long-term potential of the Singapore property market, driven by its strong fundamentals, political stability, a pro-business environment and a robust legal system.

Currently, the Group has two property development projects in Singapore and both property projects are expected to be launched in 2022, barring unforeseen circumstances.

One of the property development projects is a freehold property, previously known as Realty Centre, which the Group acquired for S\$148 million. The Group holds 51% interest while the remaining 30% and 19% are held by MCC Land (Singapore) Pte Ltd and Sun Card Limited respectively. Located at 15 Enggor Street in the CBD area, this freehold mixed development property has a land size of approximately 11,000 square feet, a plot ratio of approximately 5.6 and a maximum height of 35 storeys.

The other property development project is a new mixed development project located right next to Tanah Merah MRT interchange. The Group has invested in a 20% equity stake in this property project with the remaining 80% interest owned by MCC Land (Singapore) Pte Ltd and Ekovest Development (S) Pte Ltd. MCC Land had acquired the 99-

year lease land parcel for \$248.99 million in November 2020 after a government tender that drew 15 bids from various developers. The mixed development site has a site area of 8,880 square metres and can potentially yield 268 condo units and 2,000 square metres of commercial space.

COMMITMENT TO STAKEHOLDERS

Across our businesses, we aim to support and contribute to the growth of our people and development of the industries that we operate in, adding new value propositions to stakeholders.

On this note, we want to thank our fellow Board members for their counsel and guidance. We would like to express our appreciation to Mr Er Kwong Wah for his invaluable contributions as Lead Independent Director. And on behalf of the Board of Directors, we want to take this opportunity to acknowledge our employees for their commitment and dedication to the Company and our mission.

We also want to extend our sincere thanks to our business partners and key stakeholders for their support and confidence. Last but not least, we would also like to thank you, our shareholders, for your continued loyalty and trust.

Despite the uncertainties brought on by COVID-19 and geopolitical factors, we are confident for the future and we will continue to work hard to successfully meet key milestones as well as actively take advantage of opportunities to shape our Group’s future.

亲爱的股东，

我们谨代表董事会提交 The Place Holdings Limited (“The Place”或“本公司”，连同其子公司，“本集团”)截至12月31日止财政年度的年报2021年(“2021财年”)。

在过去的两年里，COVID-19疫情的危机影响着所有人，社区和企业正在适应和接受COVID-19带来的“新常态”变化。

随着COVID-19疫情的持续发展，集团不得不对各类挑战和种种不确定性，但它并没有偏离我们为未来做好准备的使命。

事实上，COVID-19为我们创造了一个机会，让我们能够围绕数字经济和新的消费趋势重塑和加强我们的业务重点和增长计划。

通过这新的方式，我们正在尝试将传统业务与全方位战略和数字解决方案(如沉浸式虚拟现实技术、“新零售”方案、最后一英里物流服务、企业智能连接)相结合，以创造新的价值主张和探索针对数字经济和新消费趋势的新增长机会。

增加持续性收入现金流的新增长计划

尤其是，集团于2022年3月31日与Stellar Lifestyle Pte. Ltd. 签署了谅解备忘录。该公司是地铁公司的媒体业务部门，将共同合作塑造数字媒体的未来，并在数字经济中挖掘新机遇。集团与Stellar Lifestyle旨在打造新加坡首个天幕，这是一个悬挂式视频屏幕，将会是北京标志性景点世贸天阶梦幻天幕的增强版。

世贸天阶天幕(“天幕”)是亚洲最大的天幕之一，7,500平方米的LED灯横跨250m长和30m宽的空间，通过高分辨率图像和最先进的沉浸式声音提供壮观的灯光表演体验系统以及实现交互性的技术功能。

作为高科技视觉盛会，天幕将成为新加坡的一个新景点，并与智能数字技术系统和沉浸式媒体相结合，激发新的商业活力，并为数字媒体解决方案创造新的可能性。

凭借集团和Stellar Lifestyle多年的技术积累和智慧商业管理经验，集团将发展生态系统，使中小企业能够创造新的商机，更好地服务新加坡人。

集团将与Stellar Lifestyle一起，在但不限于新加坡探索媒体、数字和广告业务的合作和投资机会。

另外在2022年3月初，本集团也签署谅解备忘录，收购两家企业的51%股权。这两家企业持有与北京地标景点世贸天阶相关的外观设计专利和某些商标的知识产权，以及与该地标相关的资产和业务。有关世贸天阶和世贸天阶天幕的更多信息，请访问<https://www.theplacebeijing.com>。

拟议收购事项完成后，本集团预期会从知识产权中获得持续性收入和运营世贸天阶天幕的营业收入。

世贸天阶天幕开创了全新的体验式营销体验，树立了强大的品牌，并为各种活动提供场所和平台，也是广告和媒体的首选合作伙伴。

知识产权及天幕均为创收业务，预计拟议收购将加强本集团的现金流及财务表现。

凭借着可在不同国家复制的可扩展轻资产模式，世贸天阶天幕的知识产权和技术特征也能开发与数字经济相关的新业务主张(如游戏化、NFT, Metaverse)并创造新的收入来源。

FINANCIAL REVIEW

营运回顾

公司在执行董事长吉增和先生和执行董事兼首席执行官樊献勇先生的领导下，管理团队战略性地塑造了集团业务模式，并以整合传统业务为新重点借助全方位战略和数字解决方案（如沉浸式虚拟现实技术、“新零售”解决方案、最后一英里物流服务、企业智能连接），以把握数字经济中的新增长机会。

目前，集团拥有以下三大核心业务支柱

1. 拥有经营权的综合媒体相关业务
2. 物业开发及物业管理活动
3. “新零售”经营理念的文旅

2021财年财务回顾

收入

尽管本集团的业务模式由3个核心业务支柱组成，但本集团的收入仅由我们的综合媒体相关业务部门贡献，该业务部门受到COVID-19大流行的影响，客户的营销活动和品牌活动相对减少。

与2020财年相比，2021财年，集团的收入小幅增加至约118万新元，这主要是通过提供管理服务贡献的。

毛利润率

管理服务收入占总收入的比重较大，集团的毛利润率在2021财年提高至96.19%。管理服务收入的毛利润率通常高于活动管理收入。

其他收入

集团在2020财年录得其他净收入约286万新元，2021财年则录得其他净收入约96.2万新元，其中的94万新元为利息收入。相比2020年，因为没有净汇兑收益，导致2021年的其他收入减少约190万。

行政费用

与2020财年产生的约252万新元的管理费用相比，本集团在2021财年产生了约378万新元的管理费用，因为有更多潜在项目正在考虑和评估，导致专业费用、员工工资和其他相关费用的增加。

其他费用

集团在2021财年公布的其他费用约为74万新元均为净汇兑损失。

财务费用

与2020财年的财务成本约67万新元相比，集团的财务成本在2021财年下降94.18%至约4万新元，这主要是由于缺少了海德大厦相关利息费用。

净亏损

总体而言，集团在2021财年录得约284万新元的净亏损。

截至2021年12月31日的资产负债表回顾

总资产

截至2021年12月31日，集团总资产由2020年12月31日的约1.27亿新元增加104.11%或1.33亿新元至约2.59亿新元。增加主要是由于流动资产增加约1.15亿新元。

非流动资产

与截至2021年12月31日的约228万新元相比，本集团的非流动资产增加851.25%至约1,711万新元。增加的主要原因是向一间联营公司提供借款，该联营公司是一个99年租地的开发商。

流动资产

截至2021年12月31日，本集团的流动资产增加92.32%或约1.15亿新元至约2.40亿新元，而截至2020年12月31日的流动资产约为1.25亿新元。增加主要是由于在2021年4月30日完成收购海德大厦后的开发，因此在2020年发生的金额（计入其他资产）已于2021年12月31日归类为开发费用。

截至2021年12月31日，本集团的现金及现金等价物减少至约2,219万新元，因为本年度向各种开发项目注入了约4,500万新元的资金。截至2021年12月31日，本集团有3个在建项目，分别是由新远承建的海德大厦再开发项目、位于河南焦作县云台山的万润项目和位于丹那美拉地铁站旁边开发共管公寓的Tanah Merah Kechil项目。

负债总额

截至2021年12月31日，本集团的总负债由2020年12月31日的约2.471亿新元增加至约1.48亿新元。增加的主要原因是截至2021年12月31日的非流动负债增加约1.23亿新元。

非流动负债

本集团的非流动负债包括约1.08亿新元的银行贷款和约3,017万新元的非控股股东贷款。截至2021年12月31日，已从1.53亿新元的担保银行贷款中提取1.08亿新元，用于收购和重建海德大厦，最长到期日为4.5年。

总权益

截至2021年12月31日，本集团的总权益从2020年12月31日的约1.03亿新元增加到约1.12亿新元。

值得注意的是，截至2021年12月，集团的流动比率（流动资产/流动负债）保持在26倍的强劲水平，而公司所有者应占权益为9,307万美元。

CORPORATE GOVERNANCE REPORT

The Place Holdings Limited (the “**Company**”) is committed to maintaining a high standard of corporate governance within the Company and its subsidiaries (collectively, the “**Group**”) to ensure greater transparency and protection of shareholders’ interests. The board of directors of the Company (the “**Board**”) is pleased to confirm that the Company has complied with the principles and provisions of the Code of Corporate Governance 2018 (the “**Code**”) and the accompanying Practice Guidance to the Code, where they are applicable and practical to the Group. Where there is any deviation, appropriate explanation has been provided within this report.

This report sets out the Company’s corporate governance processes, practices and structures that were in place throughout the financial year ended 31 December 2021 (“**FY2021**”), with specific reference to the principles and provisions of the Code.

The Board and the management of the Company (the “**Management**”) will continue to uphold the highest standards of corporate governance within the Company in accordance with the Code.

(A) BOARD MATTERS

The Board’s Conduct of Affairs

Principle 1: The company is headed by an effective Board which is collectively responsible and works with Management for the long-term success of the company.

Role of the Board

The Board assumes responsibility for stewardship of the Group, and puts in place a code of conduct and ethics, sets appropriate tone-from-the-top and desired organisational culture, and ensures proper accountability within the Company.

The Board’s primary role is to protect and enhance long-term value and returns for shareholders. It provides entrepreneurial leadership, oversees the business and affairs of the Group, and approves the Group’s financial and strategic plans, key business initiatives, major investments and divestments proposals, and funding decisions.

Additionally, the Board has direct responsibility for decision-making in respect of the following corporate events and actions:

- (a) establish, together with Management, the strategies and financial objectives to be implemented by Management;
- (b) oversee the processes of risk management, financial reporting and compliance, and evaluate the adequacy of internal controls;
- (c) review and endorse the framework of remuneration for the Board and key management personnel as may be recommended by the Remuneration Committee;
- (d) review the performance of Management, approve the nominations of the Board of Directors and appointment of key management personnel, as may be recommended by the Nominating Committee;
- (e) ensure that necessary financial and human resources are in place for the Group to meet its objectives;
- (f) assume responsibility for corporate governance; and
- (g) consider sustainability issues, e.g. environmental and social factors, as part of its strategic formulation.

The Company has adopted internal guidelines setting forth matters which require Board approval. Matters which are specifically reserved to the full Board for decision include those involving interested person transactions (such as conflict of interest issues in relation to substantial shareholders and directors of the Company), material acquisitions and disposal of assets, corporate or financial restructuring, share issuance and dividends, and financial results and corporate strategies.

CORPORATE GOVERNANCE REPORT

Each Director is required to promptly disclose any conflict or potential conflict of interest, whether direct or indirect, in relation to a transaction or proposed transaction with the Group as soon as is practicable after the relevant facts have come to his knowledge. Where a director faces a conflict of interest issue, he will disclose and declare his conflict of interest, and recuse himself from discussions and decisions involving the issues of conflict. Each Board member makes decisions objectively in the interests of the Group.

Board and Board Committees

To assist the Board in the execution of the Board's responsibilities, certain functions of the Board have been delegated to 3 Board committees, comprising an Audit Committee ("**AC**"), a Nominating Committee ("**NC**") and a Remuneration Committee ("**RC**"). Information on each of the committees is set out further in this report. Each of these committees functions within clearly defined written terms of reference setting out their compositions, authorities and duties, and operating procedures (including reporting back to the Board) which are reviewed on a regular basis to ensure continued relevance and consistency with the Code. The effectiveness of each committee is also constantly being monitored.

The Board meets on a half yearly basis and as warranted by particular circumstances. The Company's Constitution allows for telephonic attendance and video-conference at Board and Board committee meetings. In view of the Covid-19 pandemic, the majority of the Board and Board committee meetings for FY2021 were conducted through video-conferences, in line with the Government advisories. The number of Board and Board committee meetings held for the period from 1 January 2021 to 31 December 2021, as well as the attendance of each member at these meetings, are set out below:-

All newly appointed Directors receive a formal letter setting out their duties and responsibilities, along with an information pack containing the Company's annual report, Constitution, respective Board committees' terms of reference (where applicable), as well as a template director's disclosure form pertaining to his/her obligations in relation to disclosure of interests in securities and conflict of interests.

The Directors are provided with continuing education in areas such as directors' duties and responsibilities, corporate governance, changes in financial reporting standards, insider trading, as well as changes in the relevant provisions of the Companies Act 1967 ("**Companies Act**") and Listing Manual of the Singapore Exchange Securities Trading Limited (the "**SGX-ST**"), so as to update and refresh themselves on matters that affect or may enhance their performance as Board or Board committee members. CORPORATE GOVERNANCE REPORT

Access to Information

The Management provides all members of the Board with appropriately detailed management accounts which present a balanced and understandable assessment of the Company's performance, position and prospects on a regular basis.

To assist the Board in fulfilling its responsibilities, Management provides the Board with complete and adequate information in a timely manner on an ongoing basis and prior to Board meetings so that the members may better understand the matters prior to the meetings and discussions may be focused on questions that the Board may have on issues relating to those matters. Key management personnel who can provide additional insight into the matters at hand may be invited to be present at the relevant time during the Board meeting.

Access to Management and Company Secretary

During FY2021, the Directors have separate and independent access to the Management and the Company Secretary at all times.

The Company Secretary administers and attends all Board and Board committee meetings. The Company Secretary is responsible for preparing minutes of Board and Board committee proceedings, and is responsible to the Board for advising on corporate and administrative matters, as well as facilitating orientation and assisting with professional development as required.

Board Composition

The Board, through the NC, examines and reviews its structure, size and composition annually, taking into account the scope and nature of the Company's operations. In FY2021, the Board comprised 7 directors, 4 of whom are independent directors, 2 of whom are executive directors, and the remaining director being a non-executive director.

Notes:

- (1) Mr Er Kwong Wah resigned as Lead Independent Director, Chairman of the Audit Committee, and a member of the Remuneration and Nominating Committees with effect from 22 March 2022.

CORPORATE GOVERNANCE REPORT

The composition of the Board in FY2021 complies with Provision 2.2 of the Code that independent directors should make up a majority of the Board where the Executive Chairman is part of the management team and not an independent director, and with Provision 2.3 of the Code that the majority of the Board comprises non-executive directors. Given that the Independent Directors make up a majority of the Board, the Board is able to exercise objective judgement on corporate affairs independently.

As announced by the Company on SGXNet on 24 March 2022, Mr Er Kwong Wah had resigned as Lead Independent Director of the Company with effect from 22 March 2022. The Company is currently sourcing for a new Independent Director to fill the vacancy and will make further announcements as and when there are any material updates in relation to the above.

Board Diversity

The Board has adopted a Board Diversity Policy which sets out its policy and framework for promoting diversity on the Board. The Board believes that board diversity enhances its decision-making capability, and a diverse board is more effective in dealing with organizational changes and less likely to suffer from groupthink. The Board also recognizes that board diversity is an essential element contributing to the sustainable development of the Group. These board diversity objectives are achieved by harnessing the different aspects of diversity, such as professional experiences, business perspectives, skills, knowledge, gender, age, cultural and educational background, ethnicity and length of service.

When reviewing and assessing the composition of the Board and making recommendations to the Board for the appointment of its members, the NC will consider the various aspects of board diversity, and set practical timelines to implement the policy. The NC will also report to the Board on the progress made in promoting and achieving its board diversity objectives.

The NC is satisfied that the Board comprises directors who, as a group, provide core competencies, such as accounting or finance, business or management experience, industry knowledge, strategic planning experience and customer based experience or knowledge, which are required for the Board to function effectively. The Board also consists of directors with ages ranging from 40 to more than 70 years old, and who have served on the Board for different tenures.

The NC noted that no individual or small group of individuals dominate the Board's decision-making process. Accordingly, the Board is of the view that its current structure, size and composition is appropriate for effective decision-making, and provides balance and mix of expertise, knowledge, experience and other aspects of diversity.

Board Independence

The NC conducts a review annually to determine whether or not a director is independent, adopting the Code's definition of an "independent director" and guidance as to relationships, including those provided in the Code, the Listing Manual and the Practice Guidance to the Code, that are relevant in its determination. Each Independent Director is required to complete an annual declaration to confirm his independence, and in particular, that he does not have any relationship with the Company and its related corporations, its substantial shareholders or its officers that could interfere, or be reasonably perceived to interfere, with the exercise of the Director's independent business judgement in the best interests of the Group. The independent directors must also confirm whether they consider themselves independent despite not having any relationship identified in the Code.

In assessing the independence of each Independent Director for FY2021, the NC noted that Mr Er Kwong Wah ("**Mr Er**") has served on the Board for an aggregate period of more than 9 years from the date of his first appointment. As such, the Board has subjected his independence to a particularly rigorous review.

After due consideration and with the concurrence of the NC (with Mr Er abstaining from the discussion and decision-making process with respect to the assessment of his independence), the Board has determined that Mr Er has continued to demonstrate strong independence in character and judgment in the manner in which he has discharged his responsibilities as the Lead Independent Director of the Company. Mr Er has continued to express his viewpoints, debated issues, sought clarifications, and objectively scrutinised and challenged Management, where necessary.

CORPORATE GOVERNANCE REPORT

In addition, there were new independent directors appointed to the Board and changes to the Management team since the second half of FY2016. Accordingly, the NC is of the view that the independence of Mr Er would not be undermined or impaired as a result of familiarity with Management or business of the Group.

The continued appointment of Mr Er was subjected to a two-tier voting process in accordance with Rule 210(5)(d) (iii) of the Listing Manual of the SGX-ST which came into effect on 1 January 2022, and was duly approved by the shareholders of the Company at the previous annual general meeting held on 27 April 2021 (“FY2020 AGM”).

Having stayed on the Board beyond an aggregate period of 9 years, Mr Er resigned as Lead Independent Director of the Company with effect from 22 March 2022 to facilitate board renewal. The Board extends its appreciation and gratitude to Mr Er for his dedicated contributions, advice and guidance to the Board.

Each Independent Director had also abstained from deliberations in respect of the assessment on his own independence. Taking into account the views of the NC and the annual confirmation from each of the Independent Directors of his independence, the Board considers each of the Independent Directors to be independent and will be able to exercise independent judgment in the best interests of the Company in discharging their duties as independent directors.

The Non-Executive Directors challenge Management’s assumptions, assess performance of Management, and also extend guidance to Management, in the best interest of the Group. To facilitate a more effective check on Management, the Non-Executive Directors met regularly during FY2021 without the presence of Management and provides feedback to the Board as appropriate.

Chairman and Chief Executive Officer

Principle 3: There is a clear division of responsibilities between the leadership of the Board and Management, and no one individual has unfettered powers of decision-making.

Division of the Roles of Executive Chairman and CEO

To ensure an appropriate balance of power, increased accountability and a clear division of the roles and responsibilities between the Executive Chairman and the Chief Executive Officer (“CEO”), the position of the Executive Chairman and CEO are held by separate individuals.

Currently, the Executive Chairman of the Company is Mr Ji Zenghe (“**Mr Ji**”). As Executive Chairman of the Board, Mr Ji plays a key role in developing the business of the Group and provides the Group with strong leadership and vision. He is responsible for the overall strategic planning and growth of the Group. He also exercises control over the quality, quantity and timeliness of information flow between the Board and Management.

Mr Ji also bears responsibility for the effective working of the Board. His responsibilities include, amongst others, ensuring that Board meetings are held when necessary, setting the Board meeting agendas to enable the Board to carry out its duties effectively and responsibly, taking a leading role to ensure and maintain a high standard of corporate governance, acting as a facilitator at Board meetings and maintaining regular dialogue with Management on all operational matters.

Mr Fan Xianyong (“**Mr Fan**”) is the CEO and Executive Director of the Company. He is not an immediate family member of the Executive Chairman, Mr Ji. As CEO, Mr Fan is responsible for the execution of the Company’s corporate and business strategies and policies, as well as for the conduct of the Group’s business. Mr Fan is also responsible for the overall management and day-to-day operations of the Group.

Role of Lead Independent Director

In FY2021, Mr Er Kwong Wah (“**Mr Er**”), the Lead Independent Director of the Company, led and coordinated the activities of the independent directors and addressed the concerns, if any, of the Company’s shareholders. Mr Er is available to the Company’s shareholders who have concerns when contact through the normal channels of our Executive Chairman, CEO or Management has failed to resolve such concerns or when circumstances are such that it would be more appropriate to contact him directly. Led by Mr Er, the independent directors met regularly in FY2021 without the presence of Management to discuss matters such as the changes that they would like to see in the Board processes, corporate governance initiatives, and matters which they wish to discuss during Board meetings. After such meetings, the Lead Independent Director will provide feedback to the Executive Chairman and the Board.

CORPORATE GOVERNANCE REPORT

Mr Er had been the Lead Independent Director till his cessation as an Independent Director on 22 March 2022. The Company is currently sourcing for a new Independent Director to fill the vacancy and will make further announcements as and when there are any material updates in relation to the above.

Based on the above reasons, the Board is of the view that the practices adopted by the Company are consistent with the intent of Provision 3.3 of the Code.

Board Membership

Principle 4: The Board has a formal and transparent process for the appointment and re-appointment of directors, taking into account the need for progressive renewal of the Board.

Composition and Role of the NC

The Company has established a NC to, inter alia, make recommendations to the Board on all Board appointments. In FY2021, the NC comprised the following four (4) independent directors, with the Lead Independent Director being a member of the NC:

Foo Chiah-Shiung (Hu Jiaxiong)	-	Chairman
Er Kwong Wah	-	Member (resigned with effect from 22 March 2022)
Ng Fook Ai Victor	-	Member
Chng Hee Kok	-	Member

With effect from 22 March 2022, Mr Er Kwong Wah stepped down as Lead Independent Director of the Company. The Company is currently sourcing for a new Independent Director to fill the vacancy in its Nominating Committee and will make further announcements as and when there are any material updates in relation to the above.

The role of the NC is to establish a formal and transparent process for the appointment of new directors and the re-election of directors retiring by rotation, as well as to assess the effectiveness of the Board and the overall contribution of each director towards the effectiveness of the Board.

The principal functions of the NC include the following:

- (a) to review and recommend succession plans for directors, in particular the appointment and/or replacement of the Chairman, the CEO and key management personnel;
- (b) to make recommendations to the Board on all Board appointments and re-appointments of directors or alternate directors (if any), having regard to that director's contribution and performance (such as attendance, preparedness, participation and candour) where applicable;
- (c) to review the independence of the directors annually;
- (d) to decide whether the director is able to and has been adequately carrying out his duties as director, in particular, where a director has multiple board representations;
- (e) to review training and professional development programmes for the Board and its directors;
- (f) to review and make recommendations to the Board on all candidates nominated (whether by the Board, shareholders or otherwise) for appointment to the Board, taking into account the candidate's track record, age, experience, capabilities and other relevant factors;
- (g) to identify and nominate candidates for the approval of the Board to fill vacancies in the Board as and when they arise;
- (h) to decide and recommend the process and criteria for how the Board's performance may be evaluated and propose objective performance criteria for the Board's approval; and
- (i) to assess the effectiveness of the Board as a whole, and the contribution by each director to the effectiveness of the Board.

CORPORATE GOVERNANCE REPORT

The NC has conducted an annual review of Directors' independence based on the Code's criteria for independence, and is of the view that Mr Er Kwong Wah, Mr Ng Fook Ai Victor, Mr Foo Chiah-Shiung (Hu Jiaxiong) and Mr Chng Hee Kok are independent. More details of the Board and NC's determination of the independence of the Independent Directors are set out under Principle 2 of this report in the section headed "Board Independence".

Other Principal Commitments and Board Representations

All Directors are required to declare their board representations. When a Director has multiple board representations, the NC will consider whether the Director is able to adequately carry out his duties as a director of the Company, after taking into consideration the Director's number of listed company board representations and other principal commitments. Though some of the Directors have multiple board representations, the NC is satisfied that the numbers are currently manageable, and the Directors are still able to devote sufficient time and attention to the matters of the Company. Based on the Directors' annual confirmations, contributions and participation at Board and Board committee meetings, and their level of attendance at such meetings, the NC and the Board are satisfied that all the Directors were able to and have adequately carried out their duties as Directors of the Company.

The following key information regarding all directors is set out in the following pages of this Annual Report:

- pages 12 to 17 - Key information (including each of the Director's board representations on other listed companies and other principal commitments (if any), as well as academic and professional qualifications; and
- pages 52 to 53 - Shareholding in the Company and its related corporations.

The Company currently has no alternate directors on its Board.

The NC has in place procedures stipulating the formal process and criteria for the selection and appointment of new directors, and re-appointment of directors. These procedures will increase transparency of the nominating process in identifying and evaluating nominees or candidates for appointment or re-appointment, as well as to advance the Company's objective of promoting board diversity.

Process for Selection of New Directors

The NC has recommended, and the Board has approved, a formal process for the selection of new directors as follows:

- (a) The NC evaluates the balance of skills, knowledge and experience on the Board and, in the light of such evaluation and in consultation with Management, prepares a description of the role and the essential and desirable competencies for a particular appointment;
- (b) Directors and Management may suggest suitable potential candidates. If necessary, the NC may enlist external help (for example, from the SID, search consultants, advertisements) to source for potential candidates;
- (c) The NC assesses suitability of short-listed candidates, meets and discusses with them, if necessary, the expectations and the level of commitment required; and
- (d) The NC makes recommendations to the Board for approval.

Criteria for Appointment of New Directors

All new appointments are subject to the recommendation of the NC based on, inter alia, the following objective criteria:

- (a) Integrity;
- (b) Independent mindedness;

CORPORATE GOVERNANCE REPORT

- (c) Possess core competencies which meet the current needs of the Company and complement the skills and competencies of the existing directors on the Board;
- (d) Ability to commit time and effort to carry out duties and responsibilities effectively;
- (e) Experience in the relevant field of business of the Company or industries in which it operates; and
- (f) Financially literate.

Re-appointment of Directors

All directors are to submit themselves for re-nomination and re-election at regular intervals of at least once every 3 years. Under the Company's Constitution, at least one-third of the directors for the time being (or, if their number is not a multiple of 3, the number nearest to but not lesser than one third) shall retire from office by rotation at each AGM of the Company. In addition, a newly appointed director shall hold office only until the AGM immediately following his appointment, and shall be eligible for re-election.

At the forthcoming AGM, Mr Sun Quan, Mr Fan Xianyong and Mr Foo Chiah-Shiung (Hu Jiaxiong) (collectively, the “**Retiring Directors**”) are due for retirement by rotation under Article 94 of the Constitution of the Company. The Retiring Directors had submitted themselves for re-election, and the NC (with Mr Foo Chiah-Shiung (Hu Jiaxiong) abstaining from the deliberation process in respect of his own re-election) reviewed and recommended their re-election.

The Board (save for the respective Retiring Directors who had abstained from the deliberation process in respect of their own re-election) has accepted the NC's recommendation and proposes that the Retiring Directors be re-elected at the forthcoming AGM.

Please refer to the explanatory notes to the Notice of AGM dated 11 April 2022 and pages 114 to 118 of this Annual Report for the disclosure information required pursuant to Rule 720(6) read with Appendix 7.4.1 of the Listing Manual of the SGX-ST not otherwise disclosed in this Annual Report in respect of the Retiring Directors seeking re-election.

Board Performance

Principle 5: The Board undertakes a formal annual assessment of its effectiveness as a whole, and that of each of its board committees and individual directors.

The Board has implemented a formal process for assessing the effectiveness of the Board as a whole and the Board committees, as well as the contribution by each director to the effectiveness of the Board.

The assessment of the Board and the Board committees provided an opportunity to obtain constructive feedback from each director on whether the Board's procedures and processes allowed him to discharge his duties effectively and the changes that should be made to enhance the effectiveness of the Board as a whole.

The individual director's assessment exercise allowed each director to reflect upon his own performance on the Board so that the overall quality of the board members may be improved upon and enhanced. It also assisted the NC in determining whether to re-nominate directors who are due for retirement by rotation at the next AGM, and in determining whether directors with multiple board representations are nevertheless able to and have adequately discharged their duties as directors of the Company. More details of the Board and NC's assessment and determination exercise are set out under Principle 4 of this report in the sections headed “Other Principal Commitments and Board Representations” and “Re-appointment of Directors”.

The NC determines how the performance of the Board, each Board committee and each individual director may be evaluated and proposes objective performance criteria. Such performance criteria is approved by the Board and addresses how the Board has enhanced long-term shareholders' value.

CORPORATE GOVERNANCE REPORT

Evaluation processes

(a) Board and Board committees

Each Board member is required to complete a Board and Board Committees Assessment Checklist. Based on the returns from each of the directors, a consolidated report was prepared and presented to the Board for discussion on the changes which should be made to help the Board and Board committees discharge their respective duties more effectively.

(b) Individual directors

In the case of the assessment of individual directors, each director is required to complete a director's assessment form by way of a self-assessment of his contribution to the effectiveness of the Board. Based on the returns from each of the directors, a consolidated report was prepared and presented to the Board for discussion. The Chairman of the Board then provides the necessary feedback on the respective Board performance of each director, with a view to improving their respective performance on the Board.

Performance criteria

The performance criteria for the Board evaluation are in respect of the Board size, composition and independence, conduct of meetings, corporate strategy and planning, risk management and internal control, Board performance in relation to discharging its principal functions, Board committee performance in relation to discharging their responsibilities set out in their respective terms of reference, achievement of financial targets which includes return on equity, improvement of performance of the Company's share price vis-à-vis the Singapore Straits Times Index, recruitment policy, process for determining remuneration and compensation of directors and key management personnel, financial reporting, and communication with shareholders.

The individual director's performance criteria are categorised into (1) attendance at board meetings and related activities; (2) adequacy of preparation for board meetings; (3) contribution in strategic/business decisions, finance/accounting, risk management, legal/regulatory, human resource management, or any other specialist area of each director; (4) area of experience; (5) generation of constructive debate/discussion; (6) maintenance of independence; (7) disclosure of interested party transactions; and (8) overall assessment.

(B) REMUNERATION MATTERS

Procedures for Developing Remuneration Policies

Principle 6: The Board has a formal and transparent procedure for developing policies on director and executive remuneration, and for fixing the remuneration packages of individual directors and key management personnel. No director is involved in deciding his or her own remuneration.

Composition and Role of the RC

In FY2021, the RC comprised entirely independent non-executive directors as follows:

Ng Fook Ai Victor	-	Chairman
Er Kwong Wah	-	Member (resigned with effect from 22 March 2022)
Foo Chiah-Shiung (Hu Jiaxiong)	-	Member
Chng Hee Kok	-	Member

The RC is responsible for ensuring a formal and transparent procedure for developing policies on executive remuneration and for fixing the remuneration packages of each individual director, the CEO and key management personnel (who are not directors or the CEO).

CORPORATE GOVERNANCE REPORT

The principal functions of the RC include the following:

- (a) to review and recommend to the Board for endorsement a framework of remuneration for the Board and key management personnel, and the specific remuneration packages for each director as well as for the key management personnel of the Company. The framework will cover all aspects of remuneration, including without limitation, directors' fees, salaries, allowances, bonuses, options, share-based incentives, benefits-in-kind, and termination terms to ensure they are fair;
- (b) to review the remuneration packages of all managerial staff who are related to any of the Executive Directors;
- (c) to review and approve the annual increments and/or variable bonus to be granted to the Executive Directors and key management personnel of the Company;
- (d) in the case of directors' service agreements, to consider what compensation or commitments the directors' service agreement, if any, would entail in the event of early termination, and to ensure that such service agreements contain fair and reasonable termination clauses which are not overly generous; and
- (e) to recommend to the Board, in consultation with senior management and the Executive Chairman, any long-term incentive scheme (including share schemes) and to consider the eligibility of directors for benefits under such long-term incentive schemes.

The recommendations of the RC would be submitted to the Board for endorsement. Each member of the RC will refrain from voting on any resolution in respect of the assessment of his remuneration. No director will be involved in determining his own remuneration.

The RC has access to expert advice in the field of executive remuneration outside the Company with regard to remuneration matters wherever necessary. The RC should ensure that existing relationships, if any, between any of its directors or the Company and its appointed remuneration consultants, will not affect the independence and objectivity of the remuneration consultants. In FY2021, the Company did not seek any expert advice outside the Company on remuneration of its directors.

Level and Mix of Remuneration

Principle 7: The level and structure of remuneration of the Board and key management personnel are appropriate and proportionate to the sustained performance and value creation of the company, taking into account the strategic objectives of the company.

The RC assists the Board by ensuring that remuneration policies and practices are sound in that they are able to attract, retain and motivate the directors to provide good stewardship of the Company and key management personnel to successfully manage the Company for the long term without being excessive, and thereby maximise shareholders' value. The RC reviews and approves the remuneration package, determines the overall annual increment and bonus for each of the Executive Directors and key management personnel, and ensures that they are appropriate and proportionate to the sustained performance and value creation of the Group.

In setting remuneration packages, the RC takes into consideration the pay and employment conditions within the industry and in comparable companies. As part of its review, the RC ensures that the performance-related elements of remuneration form a significant and appropriate part of the total remuneration package of executive directors and key management personnel.

The remuneration packages of each of the Executive Directors and key management personnel comprises a fixed component (in the form of basic salary and allowance) and a variable component (in the form of annual bonus) that is linked to the performance of the Group as a whole as well as the individual's performance, taking into account industry benchmarks. This is designed to align remuneration with the interests of shareholders and other stakeholders and link rewards to corporate and individual performance so as to be fair and avoid rewarding poor performance. This will also serve to promote the long-term sustainability of the Group. None of the Executive Directors received annual bonus for FY2021.

CORPORATE GOVERNANCE REPORT

Each of the Executive Directors have entered into a service agreement with the Company. The terms of their respective service agreements were recommended by the RC, and approved by the Board. Each of the key management personnel were issued a letter of appointment, the terms of which were reviewed by the RC, and approved by the Board. The RC also reviews the Company's obligations arising in the event of termination of the Executive Directors' service agreements and the key management personnel's letters of appointment, and is satisfied that the termination clauses set out therein are fair and reasonable to the parties, and are not overly generous.

The Company has not adopted the use of contractual provisions in the terms of the contracts of service of the Executive Directors and key management personnel to reclaim incentive components of their remuneration paid in prior years in exceptional circumstances of misstatement of financial results, or of misconduct resulting in financial loss to the Company. The Company will review the feasibility of having such contractual provisions in future renewals of service agreements and/or letter of appointments of its Executive Directors and key management personnel respectively as recommended by the Practice Guidance.

The RC also reviews all matters concerning the remuneration of non-executive directors by ensuring that the remuneration is commensurate with the level of contribution, taking into account factors such as effort and time, and responsibilities of these directors. The Company will submit the quantum of directors' fees of each year to the shareholders for approval at each AGM. The executive directors do not receive directors' fees.

Disclosure on Remuneration

Principle 8: The company is transparent on its remuneration policies, level and mix of remuneration, the procedure for setting remuneration, and the relationships between remuneration, performance and value creation.

Policy in respect of non-executive directors' remuneration

The Non-Executive Directors have not entered into service agreements with the Company. They are paid directors' fees, the amount of which is dependent on their level of responsibilities and whether they perform additional services through Board committees. The amount of directors' fees payable to non-executive directors is subject to shareholders' approval at the Company's AGM. The Company is of the view that the Non-Executive Directors are not overcompensated to the extent that their independence may be compromised. The Company has obtained shareholders' approval for a Performance Share Scheme at its extraordinary general meeting held on 12 October 2018 ("**Performance Share Scheme**"). The Performance Share Scheme, if implemented, will allow Non-Executive Directors, who are eligible to participate in the Performance Share Scheme, to hold shares in the Company so as to better align their interest with the interest of shareholders.

Remuneration policy in respect of executive directors and other key management personnel

The Company advocates a performance-based remuneration system that is flexible and responsive to the market and the performance of the Company and the individual employee. This allows the Company to better align executive compensation with shareholders' value creation. The total remuneration mix comprises annual fixed cash and annual performance incentive. The annual fixed cash component comprises the annual basic salary plus any other fixed allowances. The annual performance incentive is tied to the performance of the Company and the individual employee.

Provision 8.1(a) requires the Company to disclose in its annual report the policy and criteria for setting remuneration, as well as names, amounts and breakdown of remuneration of (a) each individual director and the CEO; and (b) at least the top five key management personnel (who are not directors or the CEO) in bands no wider than S\$250,000 and in aggregate the total remuneration paid to these key management personnel.

However, the Company has not disclosed the exact amount of the remuneration of each Director and its key management personnel as it is not in the best interests of the Company and the employees to disclose such details due to the (a) sensitive nature of such information and (b) the competitive business environment the Group operates. Accordingly, although the Company has deviated from complying with Provision 8.1(a) which requires the Company to disclose the exact amount and breakdown of the remuneration of each individual Director and the CEO, the Company has disclosed the remuneration of each Director and each key management personnel, in bands of S\$250,000 and the breakdown in percentages. Taking the above into account, the Company is therefore of the view that it has acted in a way consistent with the intent of Provision 8.1.

The Company considers the heads of corporate functions to be its key management personnel and for FY2021, there were 2 such persons. Save as disclosed, there were no other key management personnel for FY2021. The aggregate remuneration paid to the aforesaid key management personnel (who are not directors or the CEO) in FY2021 is S\$310,120.

CORPORATE GOVERNANCE REPORT

The Group does not have any employees who are substantial shareholders of the Company, or are immediate family members of a director, the CEO, the Executive Chairman or a substantial shareholder of the Company, and whose remuneration exceeds S\$100,000 during FY2021. Accordingly, the Company has complied with Provision 8.2 of the Code.

The Company's Performance Share Scheme contemplates the award of fully paid shares, when or after pre-determined performance or service conditions are accomplished and/or when due recognition should be given to any good work performance and/or any significant contribution to the Company. The Performance Share Scheme is intended to be broad-based and will serve to enhance the Group's overall compensation packages in order to attract talent. It will also serve as an additional and flexible incentive tool. With the Performance Share Scheme, the Company would be able to tailor share-based incentives according to the objectives to be achieved. The features and details of the Performance Share Scheme, including its eligibility criteria, potential size of grants, methodology of valuation, and other relevant terms and conditions thereof, are set out in the circular to shareholders dated 21 September 2018. No awards or shares under the aforesaid share plan were issued for FY2021.

(C) ACCOUNTABILITY AND AUDIT

Risk Management and Internal Controls

Principle 9: The Board is responsible for the governance of risk and ensures that Management maintains a sound system of risk management and internal controls, to safeguard the interests of the company and its shareholders.

Risk Governance Structure

The Board is responsible for the overall governance of risk. The Board oversees the Group's risk management framework and policies, reviews the Group's business, financial and operational risks, and formulates strategies and measures to manage and mitigate these risks with the assistance of internal and external auditors. The Board oversees Management in the design, implementation and monitoring of the risk management and internal control systems of the Group, to safeguard the interest of the Company and its shareholders.

Enterprise Risk Management

In order to ensure and maintain a sound system of risk management and internal controls to safeguard shareholders' interests and the Company's assets, the Company has developed an Enterprise Risk Management ("ERM") programme with the assistance of the Company's internal auditor, Messrs Ernst & Young Advisory Services Sdn. Bhd. The ERM programme has been implemented to identify, prioritise, assess, manage and monitor key risks faced by the Group, and covers, inter alia, financial, operational, compliance and information technology controls of the Group. The key risks identified are deliberated by Management, and reported to the Board. The Board will follow up on the actions required to be taken by Management to mitigate such identified risks. The AC also reviews the adequacy and effectiveness of the ERM programme periodically, and reports its findings to the Board at least once a year or as and when new significant risks are identified.

Internal Control and Risk Management Systems

The Company's internal auditor also assists the Company to conduct an annual review of the adequacy and effectiveness of the Company's internal controls. Accordingly, the internal auditor will take such identified risks into consideration in drawing up the annual internal audit plan. The external auditor, during the conduct of their normal audit procedures, may also report on matters relating to internal controls. Any material non-compliance or failures in internal controls, and recommendations for improvements, are reported to the AC. The AC reviews the effectiveness of the actions taken by Management on the recommendations made by the internal and external auditors in this respect, and holds regular discussions with Management to ensure the timely and proper implementation of such recommendations. The AC and the Board also reviews the reports submitted by the internal and external auditors.

CORPORATE GOVERNANCE REPORT

Based on the Board's review (with the assistance of the AC) of the adequacy and effectiveness of the Company's internal controls (including financial, operational, compliance and information technology controls) and risk management systems maintained by the Management, the Board (with the concurrence of AC), is of the opinion that the Company's system of internal controls and risk management systems are adequate and effective as at 31 December 2021 and addresses financial, operational, compliance and information technology risks, which the Company and the Group considers relevant and material to its operations. For the year under review, no material weaknesses in the internal controls and risk management systems were identified by the Board or the AC.

The Board has also received the assurance from:

- (a) the CEO and the Financial Controller, inter alia, that the financial records of the Company for FY2021 have been properly maintained, and the financial statements give a true and fair view of the Company's operations and finances for FY2021; and
- (b) the CEO, other key management personnel who are responsible in this area, and the Financial Controller, inter alia, that the Company's risk management and internal control systems for FY2021 are adequate and effective.

Audit Committee

Principle 10: The Board has an Audit Committee ("AC") which discharges its duties objectively.

Composition and Role of AC

In FY2021, the AC comprised the following directors, all of whom are independent non-executive directors:

Er Kwong Wah	-	Chairman (resigned with effect from 22 March 2022)
Ng Fook Ai Victor	-	Member
Foo Chiah-Shiung (Hu Jiaxiong)	-	Member
Chng Hee Kok	-	Member

With effect from 22 March 2022, Mr Er Kwong Wah stepped down as Lead Independent Director of the Company. The AC has explicit authority to investigate any matter within its terms of reference, full access to and co-operation by Management and full discretion to invite any director or executive officer to attend its meetings, and reasonable resources to enable it to discharge its functions properly.

In addition, the AC has independent access to the internal and external auditors, who report independently their findings and recommendations to the AC. The AC met with the internal and external auditors, without the presence of Management in each case, at least once during the year.

During the year, the AC performed independent reviews of the financial statements of the Group before the relevant announcements were released. The AC also reviewed and approved both the Company's internal and external auditors' plans. All audit findings and recommendations put up by the internal and the external auditors were forwarded to the AC. Significant issues were discussed at these meetings.

External Auditor

The Company's external auditor, Messrs Crowe Horwath First Trust LLP ("**Crowe Horwath**") has been the external auditor of the Company since 11 November 2020. Crowe Horwath was last re-appointed as external auditor of the Company at the Company's AGM held on 27 April 2021 and will hold office until the conclusion of the Company's forthcoming AGM to be held on 26 April 2022.

The aggregate amount of audit fees and non-audit fees paid to the external auditor for FY2021 are S\$159,200 and S\$51,900 respectively. The AC was of the opinion that the non-audit fees of S\$51,900 paid to the external auditor for FY2021 did not impair their independence. The Company has complied with the requirements of Rules 712 and 715 of the Listing Manual of the SGX-ST in relation to the appointment of auditing firms.

None of the members of the AC were partners or directors of Crowe Horwath within the last 24 months or has any financial interest in Crowe Horwath.

Internal Auditor

The Company's internal audit functions are out-sourced to Messrs Ernst & Young Advisory Services Sdn. Bhd. (the "**Internal Auditor**"), which is staffed with professionals with relevant qualifications and experience. The Internal Auditor has unfettered access to the AC, as well as to the Company's documents, records, properties and personnel. The AC approves the hiring, removal, evaluation and compensation of the Internal Auditor, who meets the professional standards set out in the Code.

The Internal Auditor's primary line of reporting is to the AC, although the Internal Auditor also liaises with the CEO and the Financial Controller on administrative matters.

CORPORATE GOVERNANCE REPORT

During the year, the Internal Auditor adopted a risk-based auditing approach that focuses on material internal controls, including financial, operational, compliance and information technology controls. All findings and recommendations of the Internal Auditor are submitted to the AC for deliberation with copies of these reports extended to the CEO and relevant senior management officers.

The AC reviews annually the performance of the internal audit function, and is satisfied that it is adequately resourced and has appropriate standing within the Company. Accordingly, the AC is of the view that the internal audit function is independent, effective and adequately resourced pursuant to Listing Rule 1207(10C).

Whistle-Blower Policy

The AC also reviewed the Company's "Whistle-Blower Policy" which provides for the mechanisms by which employees and other persons may, in confidence, raise concerns about possible improprieties in financial reporting or other matters, and was satisfied that arrangements are in place for the independent investigation of such matters and for appropriate follow-up action. The Company publicly discloses, and clearly communicates to employees, the existence of a whistle-blowing policy and procedures for raising such concerns.

(D) SHAREHOLDER RIGHTS AND ENGAGEMENT

Shareholder Rights and Conduct of General Meetings

Principle 11: The company treats all shareholders fairly and equitably in order to enable them to exercise shareholders' rights and have the opportunity to communicate their views on matters affecting the company. The company gives shareholders a balanced and understandable assessment of its performance, position and prospects.

The Company is committed to maintaining and improving its level of corporate transparency, providing timely, fair and adequate disclosure of relevant information to shareholders so that they will be apprised of the developments that may have a material impact on the Company's securities. Such information is published through the SGXNet. The Company does not practice selective disclosure. The Company is open to meetings with investors and analysts, and in conducting such meetings, the Company is mindful of the need to ensure fair disclosure.

Conduct of General Meetings

The Company ensures that true and fair information is delivered adequately to all shareholders, and that shareholders have the opportunity to participate effectively in and vote at general meetings of shareholders.

Pursuant to the COVID-19 (Temporary Measures) (Alternative Arrangements for Meetings for Companies, Variable Capital Companies, Business Trusts, Unit Trusts and Debenture Holders) Order 2020 ("**COVID-19 Temporary Measures Order**"), all general meetings of the Company for the year 2021 were conducted via electronic means through video-conference. All the Directors had attended the AGM of the Company held via video conference on 27 April 2021.

The forthcoming AGM of the Company will also be held via electronic means on 26 April 2022. Alternative arrangements relating to the attendance at the AGM via electronic means (including arrangements by which the meeting can be electronically accessed via live audio-video or live audio only stream), submission of questions to the Chairman of the meeting in advance of the AGM, addressing of substantial and relevant questions prior to the AGM and voting by appointing the Chairman of the AGM as proxy at the AGM, will be put in place for the AGM to be held on 26 April 2022.

More information on the forthcoming AGM of the Company can be found in the AGM Notice on pages 114 to 118 of this Annual Report. Printed copies of the AGM Notice will be sent to members. This Annual Report and the accompanying AGM Notice will also be made available on the Company's website at the URL <https://www.theplaceholdings.com/newsroom>, and on SGX's website at the URL <https://www.sgx.com/securities/company-announcements>.

The description below sets out the Company's usual practice for general meetings when there are no pandemic risks and the COVID-19 Temporary Measures Order is not in operation.

CORPORATE GOVERNANCE REPORT

To encourage more shareholder participation, the Company's general meetings are held in the city centre of Singapore, which is easily accessible to most shareholders. Notices of general meetings are published through the SGXNet, and in the newspapers, as well as despatched to shareholders, together with the annual report or circulars within the prescribed time period. Any shareholder who is not a relevant intermediary (as defined in the Companies Act) and who is unable to attend any general meeting is allowed to appoint up to 2 proxies to vote on his behalf at the meeting through proxy forms sent in advance. Pursuant to the Companies Act, the Central Provident Fund Board and relevant intermediaries may appoint more than 2 proxies. At shareholders' meetings, each distinct issue is proposed as a separate resolution. Shareholders are invited to put forth any questions they may have on the motions tabled and to be decided upon.

All directors, in particular the chairman of each Board committee, are usually present at general meetings of shareholders to address shareholders' questions. The External Auditors will also be present to address shareholders' queries (if any) about the conduct of audit and the preparation and content of the auditors' report.

The Company is not implementing absentia voting methods such as voting via mail, e-mail or fax until security, integrity and other pertinent issues are satisfactorily resolved.

The Company will put all resolutions to vote by poll so as to better reflect shareholders' interest and ensure greater transparency. A scrutineer will also be appointed to count and validate the votes cast. Votes cast, for or against and the respective percentages, on each resolution are tallied and informed to shareholders immediately at the general meetings. The total number of votes cast for or against the resolutions and the respective percentages are also announced on SGXNet after the general meetings.

At general meetings, the appointed independent scrutineer will explain the rules to the shareholders, including the poll voting procedures, that govern such general meetings.

The minutes of general meetings that are prepared by the Company include substantial and relevant comments or queries from shareholders relating to the agenda of the meeting, and responses from the Board and Management, and such minutes are available to shareholders upon their request.

The Company does not publish minutes of general meetings of shareholders on its corporate website as recommended in Provision 11.5 of the Code. There are potential adverse implications for the Company if the minutes of general meetings are made available to the public at large (outside the confines of a shareholders' meeting). The Company is of the view that its position is consistent with the intent of Principle 11 of the Code as shareholders have a right to attend general meetings either in person or by proxy, where they may exercise their right to speak and vote and have the opportunity to communicate their views on various matters affecting the Company. Further, shareholders, including those who did not attend the relevant general meeting, have a statutory right to be furnished copies of minutes of general meetings in accordance with Section 189 of the Companies Act. The Company is therefore of the view that, consistent with the intent of Principle 11 of the Code, shareholders are treated fairly and equitably by the Company.

Dividend Policy

The Group has no specific dividend policy at present. The form, frequency and amount of dividends declared each year will take into consideration the Group's profit, cash position, positive cash flow generated from operations, projected capital requirements for business growth and other factors as the Board may deem appropriate. The Company is not declaring any dividend for FY2021 as the Group will be retaining its cash for expansion purpose.

Engagement with Shareholders

Principle 12: The company communicates regularly with its shareholders and facilitates the participation of shareholders during general meetings and other dialogues to allow shareholders to communicate their views on various matters affecting the company.

The Board is mindful of its obligations to provide timely and fair disclosure of material information to the SGX-ST in accordance with the Corporate Disclosure Policy as set out in the Listing Manual. The Board's policy is that all shareholders should be informed of all major developments that impact the Group on an equal and timely manner.

CORPORATE GOVERNANCE REPORT

The Board has embraced openness and transparency in the conduct of the Company's affairs, whilst preserving the commercial interests of the Company.

- (c) notices of AGMs and extraordinary general meetings published in the newspapers;
- (d) press releases on major developments of the Group; and
- (e) the Company's website at www.theplaceholdings.com at which shareholders can access information on the Group.

The Board establishes and maintains regular dialogue with its shareholders, to gather views or inputs and to address shareholders' concerns. The AGM of the Company is the principal forum for dialogue and interaction with all shareholders.

The Company has an investor relations policy which provides for a mechanism through which shareholders may contact the Company with questions and through which the Company may respond to such questions. The Company maintains a dedicated investor relations section on its corporate website, www.theplaceholdings.com, which serves as a repository for shareholders and the investment community, ensuring that they can easily access relevant and up-to-date information about the Company, and may at any time send their enquiries for the Company to respond to such questions in a timely manner. This allows for an ongoing exchange of views so as to actively engage and promote regular, effective and fair communication with shareholders.

(E) MANAGING STAKEHOLDER RELATIONSHIPS

Engagement with Stakeholders

Principle 13: The Board adopts an inclusive approach by considering and balancing the needs and interests of material stakeholders, as part of its overall responsibility to ensure that the best interests of the company are served.

The Company adopts both formal and informal channels of communication to understand the needs of material stakeholders, and incorporates these into the Group's corporate strategies to achieve mutually beneficial relationships. The details on methods of engagement and frequency of engagement as well as the key concerns raised can be found in the Company's 2021 sustainability report.

INDEPENDENT AUDITOR'S REPORT

To the Members of the Place Holdings Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of The Place Holdings Limited (the Company) and its subsidiaries (the Group), set out on pages 59 to 111, which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 31 December 2021, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows of the Group for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the Group and the statement of financial position of the Company are properly drawn up in accordance with the provisions of the Companies Act 1967 (the Act) and Singapore Financial Reporting Standards (International) (SFRS(I)) so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 December 2021 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group for the financial year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing (SSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority (ACRA) Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities (ACRA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENT AUDITOR'S REPORT (CONT'D)

To the Members of the Place Holdings Limited

Key audit matters

Key audit matters are the matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current financial year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of development properties	
<p>Refer to the following notes to the financial statements Note 8(a) "Development properties" Note 2 "Critical accounting estimates and assumptions"</p>	
Key audit matter	How the matter was addressed in the audit
<p>As at 31 December 2021, the Group's development properties are S\$206,983,000 which represents 80% of the Group's total assets.</p> <p>The development properties are in progress of development and for sale in the ordinary course of business and are stated at the lower of cost and estimated net realisable value ("NRV"), which represents the estimated selling price less costs to be incurred in completing the development and selling the properties. The estimation of NRV involves significant management judgement in estimating costs to complete and forecasting selling prices for each development property.</p> <p>These estimates are impacted by market demand for properties, local government policies, economic outlook including implications from the Covid-19 pandemic which might exert downward pressure on property prices or increase construction costs to complete.</p> <p>From the assessment performed, management concluded that the estimated NRVs for the development properties are above their respective carrying amounts.</p> <p>Valuation of development properties is identified as a key audit matter because of the inherent risks involved in estimating the costs to complete and the expected future selling prices for each development property, particularly in light of the current economic environment in Singapore and the People's Republic of China.</p>	<p>In obtaining sufficient appropriate audit evidence, our procedures included, among others:</p> <ul style="list-style-type: none"> • We assessed reasonableness of the forecasted selling prices of development properties by considering market selling prices derived from available sales data of comparable properties within the vicinity of the development properties and taking into account macroeconomic factor and real estate price trend. • We performed sensitivity analysis on the NRV by applying downward adjustment on the forecasted selling price and construction costs escalation. • We tested samples of items of cost components to contracts and other source documents to ascertain the existence and accuracy of the cost of development properties. • We considered the adequacy of the disclosure in the financial statements. <p>Based on the results of our audit procedures performed, we note that the judgements applied by management were balanced; the key assumptions and estimates used in determining the NRVs were reasonable; and the disclosures were appropriate.</p>

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

INDEPENDENT AUDITOR'S REPORT (CONT'D)

To the Members of the Place Holdings Limited

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationship and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Alfred Cheong Keng Chuan.

Basis of preparation

The financial statements are prepared in accordance with the historical cost convention, except as disclosed in the accounting policies below and are drawn up in accordance with the Singapore Financial Reporting Standards (International) (“SFRS(I)s”). The financial statements are presented in Singapore dollars (“\$”) and all values are rounded to the nearest thousand (“\$’000”) as indicated.

The preparation of the financial statements in conformity with SFRS(I) requires management to exercise its judgements in the process of applying the Group’s accounting policies. It also requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the financial year. Although these estimates are based on management’s best knowledge of current events and actions, actual results may ultimately differ from those estimates. Critical accounting estimates and assumptions used that are significant to the financial statements and areas involving a higher degree of judgement or complexity, are disclosed in this Note.

Adoption of new and revised standards

On 1 January 2021, the Group adopted the new or amended SFRS(I) and Interpretations of SFRS(I) (“SFRS(I) INT”) that are mandatory for application from that date. Changes to the Group’s accounting policies have been made as required, in accordance with the transitional provisions in the respective SFRS(I) and SFRS(I) INT. The adoption of these new or amended SFRS(I) and SFRS(I) INT did not result in substantial changes to the Group’s and Company’s accounting policies and had no material effect on the amounts reported for the current or prior financial years.

Group accounting

(i) Subsidiaries

(a) Basis of consolidation

Subsidiaries are entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date on which control ceases.

In preparing the consolidated financial statements, transactions, balances and unrealised gains on transactions between group entities are eliminated. Unrealised losses are also eliminated but are considered an impairment indicator of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests are that part of the net results of operations and of net assets of a subsidiary attributable to the interests which are not owned directly or indirectly by the equity holders of the Company. They are shown separately in the consolidated statement of profit or loss and other comprehensive income, statement of changes in equity and statement of financial position. Total comprehensive income is attributed to the non-controlling interests based on their respective interests in a subsidiary, even if this results in the non-controlling interests having a deficit balance.

(b) Acquisition of businesses

The acquisition method of accounting is used to account for business combinations by the Group. The Group determines that it has acquired a business when the acquired set of assets and activities includes, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs.

The consideration transferred for the acquisition of a subsidiary comprises the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred also includes the fair value of any contingent consideration arrangement. Acquisition-related costs, other than those associated with the issue of debt or equity securities, are expensed as incurred.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability, will be recognised in accordance with SFRS(I) 9 either in profit or loss or as a change to other comprehensive income. If the contingent consideration is classified as equity, it will not be remeasured until it is finally settled within equity.

In business combinations achieved in stages, previously held equity interests in the acquiree are remeasured to fair value at the acquisition date and any corresponding gain or loss is recognised in profit or loss.

For non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the acquiree's net assets in the event of liquidation, the Group elects on an acquisition-by-acquisition basis whether to recognise them either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets, at the date of acquisition.

NOTES TO FINANCIAL STATEMENTS

For the Financial Year Ended 31 December 2021

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Group accounting (Continued)

(i) Subsidiaries (Continued)

(b) Acquisition of businesses (Continued)

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree, and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired and the measurement of all amounts has been reviewed, the difference is recognised directly in profit or loss as a bargain purchase.

(c) Disposals of subsidiaries or businesses

The assets and liabilities of the subsidiary, including any goodwill, are derecognised when a change in the Group's ownership interest in a subsidiary result in a loss of control over the subsidiary. Amounts recognised in other comprehensive income in respect of that entity are also reclassified to profit or loss or transferred directly to retained earnings if required by a specific Standard.

Any retained interest in the entity is remeasured at fair value. The difference between the carrying amount of the retained investment at the date when control is lost and its fair value is recognised in profit or loss. Subsequently, the retained interest is accounted for as an equity-accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

(ii) Transactions with non-controlling interests

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control over the subsidiary are accounted for as transactions with equity owners of the Group. Any difference between the change in the carrying amounts of the non-controlling interest and the fair value of the consideration paid or received is recognised in a separate reserve within equity attributable to the equity holders of the Group.

(iii) Associates

Associates are entities over which the Group exercises significant influence, but not control, over the financial and operating policy decision, generally accompanied by a shareholding giving rise to voting rights of 20% and above but not exceeding 50%. Investments in associates are accounted for in the consolidated financial statements using the equity method of accounting less impairment losses, if any.

Investments in associates are initially recognised at cost. The cost of an acquisition is measured at the fair value of the assets given, equity instruments issued or liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Goodwill on associates represents the excess of the cost of acquisition of the associate over the Group's share of the fair value of the identifiable net assets of the associate and is included in the carrying amount of the investments.

In applying the equity method of accounting, the Group's share of its associates' post-acquisition profits or losses are recognised in profit or loss and its share of post-acquisition other comprehensive income is recognised in other comprehensive income. These post-acquisition movements and distributions received from the associates are adjusted against the carrying amount of the investment. When the Group's share of losses in an associates equals or exceeds its interest in the associates, including any other unsecured non-current receivables, the Group does not recognise further losses, unless it has obligations or has made payments on behalf of the associates.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. The accounting policies of associates have been changed where necessary to ensure consistency with the accounting policies adopted by the Group.

NOTES TO FINANCIAL STATEMENTS

For the Financial Year Ended 31 December 2021

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Group accounting (Continued)

(iii) Associates (Continued)

Investments in associates are derecognised when the Group loses significant influence. Any retained interest in the entity is remeasured at its fair value. The difference between the carrying amount of the retained investment at the date when significant influence is lost and its fair value is recognised in profit or loss.

Gains and losses arising from partial disposals or dilutions in investments in associates in which significant influence are retained are recognised in profit or loss.

Subsidiaries and associates

Investments in subsidiaries and associates are carried at cost less accumulated impairment losses in the Company's statement of financial position. On disposal of investments in subsidiaries and associates, the difference between disposal proceeds and the carrying amounts of the investments are recognised in profit or loss.

Currency translation

(i) Functional and presentation currency

The individual financial statements of each entity are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). The consolidated financial statements are presented in Singapore dollars ("S\$"), which is the functional currency of the Company.

(ii) Transactions and balances

Transactions in a currency other than the functional currency ("foreign currency") are measured in the respective functional currencies of the Group and its subsidiaries and are recorded on initial recognition in the functional currencies at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the reporting date are recognised in profit or loss except for exchange differences arising on monetary items that form part of the Group's net investment in foreign operations, which are recognised initially in other comprehensive income and accumulated under foreign currency translation reserve in equity in the consolidated financial statements. The foreign currency translation reserve is reclassified from equity to profit or loss of the Group on disposal of the foreign operation.

(iii) Translation of the Group's financial statements

The assets and liabilities of foreign operations are translated into Singapore dollars at the rate of exchange ruling at the reporting date and their profit or loss are translated at the exchange rates prevailing at the date of the transactions. The exchange differences arising on the translation are recognised in other comprehensive income. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the profit or loss.

In the case of a partial disposal without loss of control of a subsidiary that includes a foreign operation, the proportionate share of the cumulative amount of the exchange differences are re-attributed to non-controlling interest and are not recognised in profit or loss. For partial disposals of associates or jointly controlled entities that are foreign operations, the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Development properties

Development properties are properties acquired or being constructed for sale in the ordinary course of business, rather than to be held for the Group's own use, rental or capital appreciation.

Development properties are held as inventories and are measured at the lower of cost and net realisable value. Net realisable value represents the estimated selling price in the ordinary course of the business, based on market prices at the reporting date and discounted for the time value of money if material, less the estimated costs of completion and the estimated costs to be incurred in selling the property.

The costs of development properties recognised in profit or loss on disposal are determined with reference to the specific costs incurred on the property sold and an allocation of any non-specific costs based on the relative size of the property sold.

Plant and equipment

All items of plant and equipment are initially recorded at cost. The cost of an item of plant and equipment initially recognised includes its purchase price and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Cost also includes borrowing costs (see the accounting policy for borrowing costs as set out in this Note). The cost of an item of plant and equipment including subsequent expenditure is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. When significant parts of plant and equipment is required to be replaced in intervals, the Group recognises such parts as individual assets with specific lives and depreciation, respectively. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance expenses are recognised in profit or loss when incurred.

After initial recognition, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment loss.

	Useful lives (Years)
Fixtures and equipment	3
Motor vehicles	10

The residual value, estimated useful life and depreciation method are reviewed, and adjusted as appropriate, at each reporting date to ensure that the amount, method and period of depreciation are consistent with the expected pattern of economic benefits from items of plant and equipment. Fully depreciated assets are retained in the financial statements until they are no longer in use.

An item of plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The gain or loss on retirement or disposal is determined as the difference between any sales proceeds and the carrying amounts of the asset and is recognised in the profit or loss within "Other income / (expenses)".

Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when an annual impairment assessment for an asset is required (for goodwill, intangible assets with indefinite useful lives or yet to be available for use), the Group makes an estimate of the asset's recoverable amount.

NOTES TO FINANCIAL STATEMENTS

For the Financial Year Ended 31 December 2021

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of non-financial assets (Continued)

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely dependent on those from other assets. Where the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows expected to be generated by the asset are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Group's cash-generating units to which the individual assets are allocated. These budgets and forecasts calculations are generally covering a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth years.

Impairment losses are recognised in profit or loss in those expense categories consistent with the function of the impaired asset, except for assets that are previously revalued where the revaluation was taken to other comprehensive income. In this case, the impairment is also recognised in other comprehensive income up to the amount of any previous revaluation.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount of an asset since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. This increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in the profit and loss unless the asset is measured at revalued amount, in which case the reversal is treated as a revaluation increase.

Financial assets and liabilities

(i) Initial recognition and measurement

Trade receivables are initially recognised when they are originated. Other financial assets and financial liabilities are recognised on the statement of financial position when, and only when, the Group becomes a party to the contractual provisions of the financial instrument.

(ii) Classification and subsequent measurement

Financial assets

Financial assets are classified and subsequently measured at amortised cost or fair value on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets, at the following categories:

- Amortised costs
- Fair value through Other Comprehensive Income (FVOCI) – Debt investments
- FVOCI – Equity investments
- Fair value through profit or loss (FVPL)

NOTES TO FINANCIAL STATEMENTS

For the Financial Year Ended 31 December 2021

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets and liabilities (Continued)

(ii) Classification and subsequent measurement (Continued)

Financial assets (Continued)

Financial assets are not reclassified after initial recognition unless the Group changes its business model for managing financial assets, in which case such reclassification will be applied prospectively from the reclassification date. As at the reporting date, the Group has financial assets at amortised costs only.

Financial assets at amortised costs

Unless designated at FVPL, financial assets are measured at amortised costs if:

- It is held within a business model with an objective to hold the assets to collect contractual cash flows; and
- Its contractual cash flows comprise of solely principal and interest on the principal amount outstanding

These assets, mainly trade and other receivables including amount due from related parties, cash and cash equivalents, are subsequently measured at amortised costs using the effective interest rate method, which is reduced by impairment losses. Interest income, foreign exchange differences, and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial liabilities

Financial liabilities are subsequently measured at amortised costs unless it is held for trading (including derivative liabilities), or designated as financial liabilities at FVPL on initial recognition to significantly reduce accounting mismatch or when a group of financial liabilities are managed whose performance is evaluated on a fair value basis.

Financial liabilities at amortised costs are subsequently measured at amortised costs using the effective interest rate method. Interest expense and foreign exchange differences are recognised in profit or loss. These financial liabilities mainly comprise trade and other payables including amount due to related parties, and loans and borrowings. As at the reporting date, the Group has financial liabilities at amortised costs only.

(iii) Derecognition

Financial assets

Financial assets are derecognised when the contractual rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial assets. On derecognition of a financial asset in its entirety, the difference between the carrying amount measured at the derecognition date and the sum of the consideration received is recognised in profit or loss.

All regular way purchases and sales of financial assets are recognised or derecognised on the trade date, i.e. the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of the assets within the period generally established by regulation or convention in the marketplace concerned.

NOTES TO FINANCIAL STATEMENTS

For the Financial Year Ended 31 December 2021

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets and liabilities (Continued)

(iii) Derecognition (Continued)

Financial liabilities

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires. The Group also derecognise a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case, a new financial liability on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount of the financial liabilities extinguished, or transferred and the consideration paid (including non-cash transferred or liabilities assumed) is recognised in profit or loss.

(iv) Offsetting

Financial assets and liabilities are offset and the net amount reported on the statement of financial position when there is a legally enforceable right to offset and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Impairment of financial assets

The Group applies impairment model in SFRS(I) 9 to measure the Expected Credit Losses (ECL) of the following categories of assets:

- Financial assets at amortised costs (including trade receivables)
- Contract assets (determined in accordance with SFRS(I) 15)

ECLs are probability-weighted estimates of credit losses, which are measured at the present value of all cash shortfalls (difference between the cash flows due to the Group in accordance with the contracts and the cash flows that the Group expects to receive), discounted at effective interest rate of the financial asset. The expected cash flows include cash flows from the sale of collaterals held, if any, or other credit enhancements that are integral to the contractual terms.

Simplified approach

The Group applies simplified approach to all trade receivables and contract asset. Impairment loss allowance is measured at Life time ECL, which represents ECLs that result from all possible default events over the expected life of a financial instrument or contract asset ('life-time ECL'). The Group has established a provision matrix that is based on historical credit loss experience, adjusted for forward-looking factors specific to those customers and the economic environment.

General approach

The Group applies general approach on all other financial instruments and financial guarantee contracts, and recognise a 12-month ECL on initial recognition. 12-month ECL are ECLs that result from possible default events within 12 months after the reporting date or up to the expected life of the instrument, if shorter.

Impairment loss allowance or reversals are recognised in profit or loss. Loss allowance on financial assets at amortised cost and contract assets are deducted from the gross carrying amount of those asset.

NOTES TO FINANCIAL STATEMENTS

For the Financial Year Ended 31 December 2021

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of financial assets (Continued)

General approach (Continued)

Significant increase in credit risk (Stage 2)

For credit exposures for which there has been a significant increase in credit risk since initial recognition, impairment loss allowance is measured at life-time ECL. When a financial asset is determined to have a low credit risk at reporting date, the Group assumes that there has been no significant increase in credit risk since initial recognition. For other cases, the Group uses reasonable and supportable forward-looking information available without undue cost or effort to determine, at each reporting date, whether there is significant increase in credit risk since initial recognition. In assessing whether there has been significant increase in credit risks, the Group takes into account factors such as:

- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant change in the debtor's ability to meet its debt obligations
- actual or expected significant adverse change in the regulatory, economic, or technological environment that are expected to cause a significant change in the debtor's ability to meet its debt obligations
- an actual or expected significant change in the operating results of the debtors

If credit risk has not increased significantly since initial recognition or if the credit quality improves such that there is no longer significant increase in credit risk since initial recognition, loss allowance is measured at 12-month ECL.

Credit-impaired (Stage 3)

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Definition of default

The Group considers a financial asset to be in default when the borrower is unlikely to pay its credit obligation in full, without recourse by the Group.

The Group considers a contract asset to be in default when the customer is unlikely to pay the contractual obligations to the Group in full without recourse by the Group.

Write-off policy

The Group write off the gross carrying amount of a financial assets to the extent that there is no realistic prospect of recovery, for example when the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the Group.

NOTES TO FINANCIAL STATEMENTS

For the Financial Year Ended 31 December 2021

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leases

The Group assesses whether a contract is or contains a lease, at inception of the contract. A contract contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Reassessment is only required when the terms and conditions of the contract are changed.

As lessee

At the lease commencement date, the Group recognises a Right-of-Use (ROU) asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases and low-value leases as described below.

ROU asset

ROU assets are initially measured at cost, which comprise initial amount of lease liability, any lease payment made at or before commencement date, plus initial direct costs incurred, less lease incentives received. Initial direct costs are costs that would not have been incurred if the lease had not been obtained.

Whenever the Group incurs obligations for costs to dismantle and remove a leased asset, restore the site or the underlying asset to the condition required by the terms and conditions of the lease contract, a provision is recognised and measured under SFRS(I) 1-37; and included in the carrying amount of the ROU assets to the extent that the costs relate to a ROU asset.

ROU assets are subsequently measured at cost less accumulated depreciation and impairment losses. ROU assets are depreciated from commencement date to the earlier of end of lease terms and useful life of the ROU assets. In addition, the ROU assets are also adjusted for certain remeasurement of lease liability.

ROU assets are presented as a separate line item on the statement of financial position.

The useful life of the ROU asset (over the terms of the lease) is as follows:

	Useful lives (Years)
Office premises and staff accomodation	1 to 3 years

For contract that contains lease and non-lease component, the Group applies the practical expedient allowed in SFRS(I) 16 not to separate non-lease components, and account for the lease and non-lease components as a single lease component.

Lease liability

Lease liability is initially measured at the present value of lease payments discounted using interest rate implicit in the lease, or if that rate cannot be readily determined, the lessee's incremental borrowing rate. Generally the Group uses the incremental borrowing rate as the discount rate, which is estimated by reference to interests rates from various external financing sources for similar terms such as lease terms, type of assets leases and economic environment.

The following lease payments are included in the measurement of lease liability:

- Fixed payment (including in-substance fixed payments), less any lease incentives receivables;
- Variable lease payment that are based on an index or rate, initially measured using the index or rate as at the commencement date;
- Amount expected to be payable under residual value guarantees

NOTES TO FINANCIAL STATEMENTS

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leases (Continued)

Lease liability (Continued)

The following lease payments are included in the measurement of lease liability: (Continued)

- The exercise price of a purchase option if it is reasonably certain to exercise the option; and
- Payment of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease liability is measured at amortised cost using effective interest method. Remeasurement of lease liability (and corresponding adjustment to ROU asset, or to profit or loss when the ROU asset has been reduced to zero) is required when there is:

- a change in future lease payments arising from changes in an index or rate, in which case the initial discount rate is used;
- a change in the Group's assessment of whether it will exercise an extension or termination option, in which case a revised discount rate is used; or
- modification in the scope or the consideration of the lease that was not part of the original term and not accounted for as separate lease, in which case a revised discount rate at effective date of modification is used.

Exemption / exclusion

The Group has elected not to recognise ROU asset and lease liabilities for short term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For such leases, the Group recognises the lease payments in profit or loss as an operating expense on a straight-line basis over the lease term.

COVID-19 Rent concessions

The Group applied the practical expedients under Amendments to SFRS(I) 16: COVID-19-Related Rent Concessions and hence is not required to assess whether eligible rent concessions that are direct consequence of the COVID-19 are lease modifications. The Group applies the practical expedient to all leases and recognise the effect in profit or loss as other income. For rent concessions in other leases to which the Group chooses not to apply the practical expedient, or that do not qualify for the practical expedient, the Group assess whether there is a lease modification.

Provisions

General

A provision is recognised when the Group has a present obligation, legal or constructive, as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. Where the effect of the time value of money is material, provisions are discounted using a current pre tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial guarantees

The Group has issued corporate guarantees to banks for bank borrowings of its subsidiaries. These guarantees are financial guarantee contracts as they require the Group to reimburse the banks if the subsidiaries fail to make principal or interest payments when due in accordance with the terms of their borrowings.

Financial guarantee contracts are initially recognised as a liability at their fair values, adjusted for transaction costs directly attributable to the issuance of the guarantees.

Financial guarantee contracts are initially measured at fair value plus transaction costs and subsequently measured at the higher of:

- (a) premium received on initial recognition less the cumulative amount of income recognised in accordance with the principles of SFRS(I) 15; and
- (b) the amount of expected loss computed using the impairment methodology under SFRS(I) 9.

Borrowings

Borrowings are presented as current liabilities unless the Group has an unconditional right to defer settlement for at least 12 months after the reporting date, in which case they are presented as non-current liabilities.

Borrowings are initially recorded at fair value, net of transaction costs and subsequently carried for at amortised costs using the effective interest method. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method. Borrowings which are due to be settled within twelve months after the reporting date are included in current liabilities on the statement of financial position even though the original term was for a period longer than twelve months and an agreement to refinance, or to reschedule payments, on a long-term basis is completed after the reporting date and before the financial statements are authorised for issue.

Borrowing costs

Borrowing costs are interest and other costs incurred in connection with the borrowing of funds. Interest expense is calculated using the effective interest method. Borrowing costs are recognised as an expense in the period in which they are incurred except that borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset that necessarily take a substantial period of time to get ready for their intended use or sale are capitalised as part of the cost of that asset until substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete. Borrowing costs relating to development properties where revenue is recognised over time are not capitalised and instead, are expensed when incurred.

Share capital

Proceeds from issuance of ordinary shares are classified as share capital in equity. Incremental costs directly attributable to the issuance of new ordinary shares are deducted against share capital.

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation ("PO") is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customers, at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. Unless otherwise mentioned, the Group concludes that it is acting as a principal in the provision of goods or services in its contracts with customers.

The transaction price is allocated to each PO in the contract on the basis of the relative stand-alone selling prices of the promised services. Transaction price is the amount of consideration in the contract to which the Group expects to be entitled in exchange for transferring the promised services.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue from contracts with customers (Continued)

Management services fee and event management fee

Revenue from management services fee and event management fee are recognised over time, as the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs the services to customers.

Employees' benefits

(i) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

(ii) Defined contribution plans

The Group participates in the national schemes as defined by the laws of the countries in which it has operations. Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into separate entities such as the Central Provident Fund on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid. Obligations for contributions to defined contribution retirement plans are recognised as an expense in the period in which the related service is performed, unless the costs qualify to be capitalised.

Singapore

The Group makes contribution to the Central Provident Fund (CPF) Scheme in Singapore, a defined contribution pension scheme.

People's Republic of China ("PRC")

The subsidiaries, incorporated and operating in the PRC, is required to provide certain retirement plan contribution to their employees under the existing PRC regulations. Contributions are provided at rates stipulated by the PRC regulations and are managed by government agencies, which are responsible for administering these amounts for the subsidiary's employees.

(iii) Employee leave entitlement

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability as a result of services rendered by employees up to the reporting date.

Income tax

(i) Income tax

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using tax rates and tax laws that have been substantially enacted by the reporting date in the countries where the Group operates and generates taxable income. Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income tax (Continued)

(i) Income tax (Continued)

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, associates and joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow deferred tax assets to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised, based on tax rates and tax laws that have been enacted or substantively enacted by the reporting date. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to other comprehensive income or equity, in which case the deferred tax is also dealt with in other comprehensive income or equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

(ii) Value-added-tax ("VAT")

The Group's sales of goods and service income in the People's Republic of China ("PRC") are subjected to VAT at the applicable rate of 6% for PRC domestic sales. Input tax on purchases can be deducted from output VAT. The net amount of VAT recoverable from, or payable to, the taxable authority is included as part of "Other receivables" or "Other payables" in the statement of financial position.

Jobs credit scheme

Cash grants received from the government in relation to the Jobs Credit Scheme are recognised as income upon receipt.

Government grants

Government grants are recognised as a receivable when there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, the fair value is recognised as deferred income on the statement of financial position and is recognised as income in equal amounts over the expected useful life of the related asset.

When loans or similar assistance are provided by governments or related institutions with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as additional government grant.

Contingencies

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group, or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Contingent liabilities and assets are not recognised on the statement of financial position of the Group, except for contingent liabilities assumed in a business combination that are present obligations and which the fair values can be reliably determined.

Earnings per share

The Group presents basic and diluted earnings per share ("EPS") data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the year, adjusted for own shares held. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

A related party is defined as follows:

Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand and short-term fixed deposits.

Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker responsible for allocating resources and assessing performance of the operating segments.

Critical accounting estimates, assumptions and judgements

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

(i) Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) *Net realisable value of development properties*

Development properties are stated at lower of cost or net realisable value. Net realisable value is assessed with reference to the estimated selling prices, less the estimated costs of completion and the estimated costs necessary to make the sale. The estimated selling prices are based on recent selling prices for the development project or comparable projects and prevailing market conditions. The estimated costs of completion are based on contracted amounts and, in respect of amounts not contracted for, management's estimates of the amounts to be incurred taking into consideration historical trends of the amounts incurred.

In estimating the net realisable value of the Group's development properties in Singapore and PRC which has yet to commence construction (Note 8(a)), the Group has considered the market conditions (including the impact of COVID-19) as at the reporting date. Despite signs of economy recovering as COVID-19 situation is brought under control in both Singapore and PRC, it is not possible to estimate the full impact of the pandemic's near-term or longer effects. The scale and duration of these developments remain uncertain as at the date of this report as it remains challenging to predict the continuing financial impact of the COVID-19 pandemic to the business.

The carrying amounts and further details of development properties are disclosed in Note 8(a).

(b) *Impairment of financial assets*

Impairment allowance for financial assets measured at amortised costs are applied using the ECL model, which requires assumptions of risk of default and expected loss rates. The Group uses judgement in making these assumptions, and measures ECL on receivables on individual basis, using information such as the age of the balances, payment history, status of negotiations with debtors and other external information available to management. The default rates are based on the Group's historical credit loss experience, profiling customers by credit risk characteristics and are adjusted for forward-looking factors specific to the debtors and the economic environment. As the Group and Company does not hold any collateral to the financial assets, the expected loss rates will be the full amount of the financial assets if there are certain risk of default.

The carrying amounts and further details of the key assumptions for the ECL assessment are disclosed in Note 9 and 28(iii) respectively.

5. INVESTMENT IN SUBSIDIARIES (Continued)

- (b) Acquisition of Tianjie Yuntai Wanrun (Xiuwu) Property Development Co., Ltd. (“Wanrun”)

Obtaining control of Wanrun

As disclosed in the Company’s Circular dated 21 September 2018 (“**2018 Circular**”), a wholly-owned subsidiary of the Company, The Place Yuntai Investment Pte. Ltd. (“**TPYI**”) had, on 8 November 2017, entered into a subscription agreement, with Jingneng Tianjie Yuntaishan Investment Co., Ltd. (“**JTYI**”) with a view to injecting US\$20,530,000 (equivalent to approximately \$27,716,000) (“**Subscription Amount**”) as equity capital into Wanrun, thereby acquiring and owning 80% of the enlarged equity capital of Wanrun (“**Proposed Subscription**”). The Proposed Subscription was to be completed by 31 March 2018, as well as subject to, *inter alia*, the approval of the relevant authorities in the PRC, and the approval of the Company’s shareholders given that it was an interested person transaction under the SGX Listing Rules, for Wanrun was then wholly owned by JTYI, an entity in which certain directors of the Company hold substantial equity interest. On 12 October 2018, the Proposed Subscription was duly approved by the shareholders of the Company at an extraordinary general meeting held on that date.

In the financial year ended 31 December 2018, TPYI and JTYI executed a supplemental agreement dated 31 December 2018 (“**1st Supplemental Subscription Agreement**”) to extend the completion date of the Proposed Subscription to 31 December 2019.

In the financial year ended 31 December 2019, TPYI and JTYI entered into a further supplemental agreement dated 24 December 2019 (“**2nd Supplemental Subscription Agreement**”) for the purpose of further extending the completion date of the Proposed Subscription to 31 December 2020. Pursuant to the 2nd Supplemental Subscription Agreement, TPYI also paid a refundable deposit of RMB100,000,000 (equivalent to \$19,320,000) (“**Refundable Deposit**”) to JTYI. It was agreed that the Refundable Deposit may be treated as part payment of the Subscription Amount if the Proposed Subscription was completed by 31 December 2020; otherwise, JTYI was to return the Refundable Deposit in full to TPYI. However, the Refundable Deposit was fully refunded in or around September 2020.

On 29 September 2020, TPYI and JTYI executed yet another supplemental agreement (“**3rd Supplemental Subscription Agreement**”) in which the parties agreed to enter into a restated subscription agreement (“**Restated Subscription Agreement**”) in view of the recent changes in the civil, corporate and foreign investment laws and regulations in the PRC. On the same date, TPYI and JTYI executed the Restated Subscription Agreement to, *inter alia*, defer the timing of payment of the Subscription Amount to 30 April 2022 and agree that TPYI’s rights and obligations as a registered shareholder of Wanrun would be recognised from the date of registration of the increase in registered capital of Wanrun with the competent Administration for Industry and Commerce (“**AIC**”) (instead of the date of receipt of the Subscription Amount by Wanrun). Hence, despite the deferment of the payment date of the Subscription Amount, Wanrun submitted the Restated Subscription Agreement and other relevant documents to the competent AIC in the PRC to register an increase in its registered capital and register TPYI as the holder of 80% of the enlarged registered capital of Wanrun. On 27 October 2020 (“**Completion Date**”), TPYI was successfully registered as an 80% shareholder of Wanrun. In addition, the Board of Directors of Wanrun was reconstituted to comprise three directors of which two were appointed by TPYI and the remaining by JTYI. Given that TPYI has procured the majority voting powers and board representation on the Completion Date, the Group determined that the Proposed Subscription was completed and that TPYI has since been able to exercise control over Wanrun. Accordingly, Wanrun was considered and accounted for as a subsidiary with effect from the Completion Date.

In or around November 2020, TPYI paid US\$1,460,000 (equivalent to \$1,951,000) of the Subscription Amount to Wanrun, with the remaining sum of US\$19,070,000 (equivalent to \$25,262,000) being payable on or before 30 April 2022 pursuant to the Restated Subscription Agreement. During the financial year, TPYI further disbursed a sum of approximately US\$12,789,000 (equivalent to \$17,012,000) to Wanrun as further part payment of the Subscription Amount. Accordingly, as at 31 December 2021, TPYI remaining gross contractual amount payable to Wanrun was US\$6,281,000 (equivalent to \$8,500,000).

5. INVESTMENT IN SUBSIDIARIES (Continued)

- (b) Acquisition of Tianjie Yuntai Wanrun (Xiuwu) Property Development Co., Ltd. (“**Wanrun**”) (Continued)

Wanrun’s Land Use Right

As also disclosed in the 2018 Circular, Wanrun was initially granted the land use right (expiring in October 2051) for a piece of commercial land with an area of approximately 270,500m² in South East of Mount Yuntai (“**the Land**”). The Land is part of Mount Yuntai Integrated Tourist Township Project, to be developed by JTYI and its related entities. As a condition for granting the land use right, Wanrun had committed to invest a minimum amount of RMB243,450,000 (approximately \$49,347,000) to develop the Land (Note 26). As announced via SGXNet on 1 November 2020, following the acquisition of Wanrun, the Group had applied to the relevant authorities to change the land zoning of the Land from commercial to residential type.

As at March 2021, the requisite approvals for the change in zoning was procured and the Land could now be developed for residential purposes. The expiry date of the land use right has also been extended to October 2081. As significant development activities will be carried out on the Land in future, the land use right is classified as a “development property” (Note 8(a)) for the purpose of the Group’s financial statements as at 31 December 2020.

Acquisition of Wanrun represents Acquisition of Assets

With adoption of Amendments to SFRS(I) 3: *Definition of a Business*, the Group had applied the optional concentration test when assessing the acquisition of Wanrun and determined that it represents an acquisition of “a group of assets” rather than a “business” given that substantially all of the fair values of the gross assets are concentrated in a land use right held by Wanrun. Accordingly, there was no goodwill (positive or negative) being recognised on such acquisition. Upon the Completion Date, the Group had essentially acquired land use right (including the associated adjustments on acquisition) (classified as development property) of \$13,342,000 (see Note 8(a)), bank balance of \$15,000 and assumed net financial liabilities representing amounts owing to JTYI of \$4,546,000 (see Note 11), with non-controlling interest of \$8,811,000 being recognised at the proportionate interest in the fair value of net identifiable assets acquired.

- (c) Disposal and repurchase of 1.5% equity interest in The Place Yuntai Investment Pte. Ltd. (“**TPYI**”)

As announced via SGXNet on 29 June 2021, the Company entered into a sale and purchase agreement with an independent third party incorporated in Hong Kong (“**HK Entity**”) to dispose of 420,980 ordinary shares in the capital of TPYI (representing the Company’s 1.5% equity interest in TPYI) for a consideration of HKD 25 million (equivalent to \$4.3 million). The transaction was completed on 30 June 2021.

Subsequently, on 15 December 2021, the Company entered into a separate agreement with the HK Entity to repurchase the 1.5% equity interest in TPYI (“**TPYI Share Repurchase**”) at the same consideration of HKD 25 million. In this connection, a tripartite agreement dated 20 December 2021 was entered into between the Company, the HK Entity and Wanrun (an 80% subsidiary of TPYI). Pursuant thereto, the consideration for the TPYI Share Repurchase was to be satisfied by the transfer and/or conveyance to the HK Entity of a part of an interest in land under the Mount Yuntai Project held by Wanrun, at an estimated or equivalent value of HKD 25 million (the “**Land Interest Transfer**”). As at 31 December 2021, while the Company had completed the TPYI Share Repurchase, the Land Interest Transfer has yet to be completed. Consequently, the amount of \$4.3 million (HKD 25 million) was recorded and presented as “contract liabilities” (see Note 11(ii)) in the consolidated statement of financial position of the Group as at 31 December 2021.

- (d) Increase in paid-up capital and Changes in composition of NCI of New Vision Holding Pte. Ltd. (“NVH”)

As announced via SGXNet on 11 March 2021, a shareholder agreement (“SHA”) was entered into between The Place Singapore Investment Pte. Ltd. (“TPSI”) (a subsidiary of the Company), MCC Land (Singapore) Pte. Ltd. (“MCC-SG”) and Sun Card Limited (“SCL”) to increase NVH’s paid up capital to \$3 million to be contributed by 3 shareholders in the proportion of 51%, 30%, 19% respectively. The share capital injection was completed on 17 April 2021. Pursuant to the SHA, the Group retains 51% interest in NVH, and management is of the view that the Company still maintains control over NVH, taking into account the terms of the SHA and a supplemental agreement to the SHA dated 1 May 2021 as to its ability to direct the relevant activities of NVH. Further, SCL is controlled by two executive directors of the Company, and owned 19% of NVH as at the reporting date.

Financial risk management objectives and policies

The Group is exposed to financial risks arising from its operations and the use of financial instruments. The key financial risk includes market risk (including foreign exchange risk and interest rate risk), liquidity risk and credit risk. The Board of Directors reviews and agrees policies and procedures for the management of these risks. The Audit Committee provides independent oversight to the effectiveness of the risk management process.

Enterprises operating in the PRC can enter into exchange transactions through the People's Bank of China or other authorised financial institutions. The Group has not entered into any derivative instruments for hedging or trading purposes. The Group's currency exposure is as follows:

This analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the end of the reporting period.

If the Singapore dollars strengthens by 10% (2020: 10%) against the relevant foreign currency, with all other variables held constant, loss for the year and other equity will increase / (decrease) by:

Foreign exchange risk sensitivity

A weakening of Singapore dollars against the above foreign currencies at 31 December would have had the equal but opposite effect on the above foreign currencies to the amounts shown above, on the basis that all other variables remain constant.

The Group is also exposed to currency translation risk arising from its net investment in its foreign operation in PRC including intragroup balances. The Group's net investment in PRC is not hedged as currency position in PRC are considered to be long-term in nature.

(b) Interest rate risk

The Group's exposure to market risk for changes in interest rates relates primarily to the Group's deposits with banks and loan to a third party. The Group does not hedge against this risk exposure.

Exposure to interest rate risk

At the reporting date, the interest rate profile of the interest-generating financial instruments are as follows:

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets at fair value through profit or loss. Therefore, in respect of the fixed rate instruments, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable rate instruments

An increase of 100 basis points (“bp”) in interest rates at the reporting date would have increased / (decreased) (loss) / profit for the year by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed for the same basis for 2020.

	Group \$'000	Company \$'000
<u>100bp increase</u>		
2021		
Loss for the year	714	(48)
2020		
Profit for the year	304	17

A decrease of 100bp in interest rates would have had the equal but opposite effect on the (loss) / profit for the year.

(ii) Liquidity risk

The Group monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group’s operations and to mitigate the effects of fluctuations in cash flows. Typically, the Group ensures that it has sufficient cash on demand to meet expected operational expenses including the servicing of financial obligations. Management monitors rolling forecasts of the Group’s and the Company’s liquidity reserve, cash and bank balances on the basis of expected cash flows.

As at 31 December 2021, the Group has cash and bank balances deposits with banks in the PRC denominated in Renminbi amounting to S\$9,822,000 (equivalent to RMB46,245,252) (2020: S\$37,330,000 (equivalent to RMB184,160,000)). The RMB is not freely convertible into foreign currencies. Under the PRC’s Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for foreign currencies through banks that are authorised to conduct foreign exchange business.

(iii) Credit risk

Credit risk is the risk of financial loss to the Group resulting from the failure of a customer or counterparty to meet its contractual obligations, and arises principally from the Group's trade and other receivables and cash placed with financial institutions.

Expected Credit Losses ("ECLs")

(A) Trade and other receivables, and loan to an associate

As at 31 December 2021, the Group has following credit risk exposure and concentration:

- (a) a loan to a third party of \$3,600,000 (2020: \$3,600,000) of the Group and the Company (see Note 9). These amounts are unsecured and are expected to be settled within the next 12 months. The Group assessed that the credit risks to be low, as the Group considers that the third party has been paying interests consistently and there were no events of defaults. The Group also received a corporate guarantee on the loan to the third party provided by a related party in which certain directors of the Company have controlling interests.
- (b) a loan to an associate of the Group with a carrying amount of \$17,772,000 (2020: nil) (Note 7). The Group assessed that the credit risks to be low in view of expected saleability and profits from the underlying real estate project and the maturity profile of the related bank loan.

As at 31 December 2021, the Company has amount due from subsidiaries of \$47,287,000 (2020: \$4,639,000), mainly owing from subsidiaries in property development segment. The Company has assessed that the credit risks to be low in view of the same reasons as discussed above.

The Group applies the general approach to provide for ECLs on these receivables. Under the general approach, the loss allowance is measured at an amount equal to 12-month ECLs. The impairment methodology applied depends on whether there has been a significant change in credit risk.

(B) Cash and cash equivalents

At the reporting date, the Group and Company held cash and cash equivalents of \$22,193,000 (2020: \$73,030,000), and \$5,752,000 (2020: \$20,519,000), respectively, which represents its maximum exposure on these assets. Cash and cash equivalents are held with financial institutions which are regulated and with sound credit ratings. Impairment on cash and cash equivalents has been measured on the 12-month expected loss basis and reflects the short maturities of the exposures. The Group considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties. The amount of allowance on cash and cash equivalents was negligible.

Cash and cash equivalent are deposited in banks located in Singapore and PRC. As at the reporting date, 56% and 100% (2020: 49% and 100%) of the Group's and the Company's cash and cash equivalent are deposited in a major bank in Singapore whereas 44% (2020: 51%) of the Group's cash and cash equivalents are placed with an established bank in PRC.

(C) Financial guarantee contracts

The Group and the Company has issued financial guarantees to banks for borrowings of its associate and a subsidiary respectively with nominal amount as disclosed in part (ii) of this note. These guarantees are subject to impairment requirement of SFRS(I) 9. At the reporting date, the Group and the Company has assessed the loans under its guarantee, the financial covenants and repayment schedule of the loans, the budgets of development project and the prevailing market sentiment in property sector in Singapore, and hence, do not expect significant credit losses arising from these guarantees.

NOTES TO FINANCIAL STATEMENTS

For the Financial Year Ended 31 December 2021

28. FINANCIAL INSTRUMENTS (Continued)

Capital risk management policies and objectives

In managing the capital of the Group, the Board aims to maintain a capital structure which balances the need to maximise the rate of return on capital and at the same time safeguard the Group's ability to continue as a going concern in the long term, maintain investors, creditors and market confidence, and sustain future development of the business.

The Group defines capital as share capital and reserves.

The Group manages the level of capital in proportion to risk and future business development requirements while balancing the need to maximise the return on capital. The Group does not stipulate the desired level of capital. It monitors and manages its capital structure on an ongoing basis and makes adjustments to it in light of changes in economic conditions, risk characteristics of the underlying assets and performance of the Group.

As part of the capital management process, the Group may adjust its level of dividends, issue new shares and/or return capital to shareholders, where appropriate. The Board takes into consideration the cash position and capital requirements of the Group when determining its investment plans, capital transactions and the level of dividends to pay shareholders.

There was no change to the Group's approach to capital management during the year.

The Group is not subject to any externally imposed capital requirement except for the statutory reserve of the subsidiaries of the Group as disclosed in Note 16. This externally imposed capital requirement had been complied with by the subsidiaries for the financial year ended 31 December 2021.

29. FAIR VALUES OF FINANCIAL INSTRUMENTS

(i) Fair value of financial instruments that are carried at fair value

Fair value hierarchy

The Group classify fair value measurement using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy have the following levels:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices), and
- Level 3 – Inputs for the asset or liability that are not based on observable market data (unobservable inputs)

The Company had no financial assets or liabilities carried at fair value in 2021 and 2020.

(ii) Fair value of other financial instruments

The fair values of the financial assets and financial liabilities of the Group and of the Company which are maturing within the next 12 months approximated their carrying amounts due to the relatively short-term maturity of the financial instruments or repayable on demand terms.

The Group has determined that the carrying amounts of non-current floating-rate bank borrowings approximate its fair value given the repricing close to year end and they are subject to interest rates close to the market rate of interests for similar arrangements with financial institutions.

The Group has determined that the carrying amount of non-current loan to associate and loans from NCI approximate their fair value, given that they are subject to/ discounted at interest rates close to market interest interests for similar loans.
